- IT Systems & Hardware Support
- Web Development
- Computer Installation & Troubleshooting
- System Administration
- Database Administration
- Backup & Data Recovery
- Computer Security
- Data Verification
- End-User Support & Training
- Online Data Collection
- Teaching / User Training

PROFESSIONAL EXPERIENCE

I am a Computer Science graduate from **Kwame Nkrumah University of Science and Technology (KNUST)** and an experienced IT Support Engineer and Web Developer with hands-on expertise in hardware installation, network configuration, and system troubleshooting.

I specialize in building and supporting practical IT solutions including **School Management Systems, POS platforms, HR systems, and business websites**, helping organizations improve efficiency and reliability in their daily operations.

With experience at **Ghana Institute of Architects** and **Rapid Link Microfinance Limited**, I combine strong technical problem-solving with analytical thinking and attention to detail, focusing on building scalable systems and supporting IT infrastructure.

Full-Stack Developer & IT Systems Engineer | Prime Labs – Konongo, Ghana

September 2024 – Present

- Led design and deployment of operational systems for client organizations, including School Management, POS, and HR platforms, ensuring reliable day-to-day operations.
- Provided technical support and troubleshooting for software and hardware issues across client systems.
- Integrated databases and maintained back-end systems to ensure data integrity and operational efficiency.
- Collaborated with clients to analyze business needs and implement scalable, reliable solutions.
- Managed a small team of developers and provided client support for system setup, maintenance, and troubleshooting.

Computing Teacher (Part-Time) | Asankare TVET Institute – Asankare, Ghana

November 2024 – April 2025

- Taught Computing to technical and vocational students, focusing on practical programming and system use.
- Designed hands-on lessons that helped students apply IT concepts to real-world scenarios.
- Provided technical support for the school's computer laboratory and assisted in maintaining computer systems.
- Strengthened communication, leadership, and multitasking skills while running Prime Labs concurrently.

Projects Built

- School Management System
- Point of Sale (POS) System
- General Ledger (GL) System (for Banks)
- Payment Voucher (PV) System (for Banks)
- Human Resource (HR) System
- Websites;
Built various websites for clients across multiple industries.

Technical Skills & Tools

- **Hardware & Systems Support:**
Computer installation & troubleshooting, Hardware diagnostics, Peripheral device setup (printers, scanners, POS terminals), Network configuration, IT infrastructure support, System backup & recovery, Antivirus & malware removal.
- **Database Tools & Systems:**
MySQL, SQL, MySQL Workbench, Database backup & restore, Remote database management.
- **Software & Web Technologies**
PHP, JavaScript, API Integration, Ajax, jQuery, CSS, HTML, WordPress, Advance Server Deployment (cPanel, VPS), Cloudflare (DNS, SSL).

Hobbies
